An advertisement for the Hoopla app. The background is a solid blue color. At the top, the word "hoopla" is written in a large, white, lowercase, sans-serif font. Below the logo, the text "Tap into Discovery. Instantly Read, Listen, and Watch with Your Library Card." is displayed in white. Underneath this, the heading "3-Step Sign-Up" is followed by a numbered list: "1. Download the app or go to hoopladigital.com.", "2. Log in with your library card.", and "3. Borrow and enjoy!". In the bottom right corner, a hand is holding a Samsung Galaxy tablet. The tablet screen shows the Hoopla app interface, which features a grid of book covers including "Harry Potter", "The Mountains Sing", "If for Any Reason", "Writers & Lovers", "The Willoughby", and "Stranger Diaries". A finger is pointing at one of the book covers on the screen.

Optimize Charging Habits:

Avoid Overcharging:

While modern tablets often have protection against overcharging, it's still best to avoid keeping the tablet plugged in for extended periods after it's fully charged.

Charge to 80%:

Ideally, charge your tablet to around 80% and avoid letting it drain completely, as this can put strain on the battery.

Avoid Extreme Temperatures:

Keep your tablet in a cool, dry environment, as extreme temperatures can negatively impact battery performance and lifespan.

Consider Smart Charging:

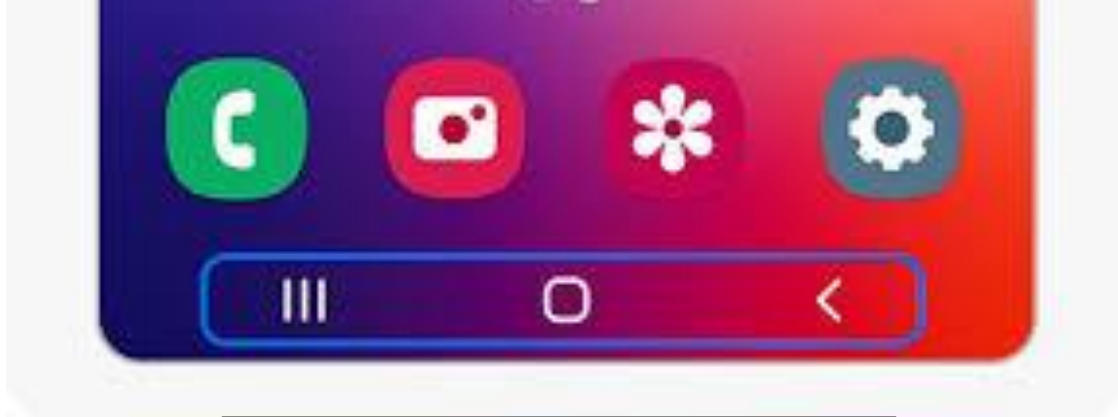

Some tablets offer smart charging features that can optimize the charging process and extend battery life.

Other Tips:

- **Keep Software Updated:** Software updates often include battery optimization improvements.
- **Store Half-Charged:** If storing for a long period, store the tablet with a 50% charge.
- **Power Down When Not in Use:** Turning off the tablet completely can prevent unnecessary battery drain.

Initial Setup:

- Powering on and navigating the welcome screens.
- Connecting to Wi-Fi.
- Setting up a Google account
 - (importance for Play Store).
- Setting up a Samsung account (benefits).
- Lock screen options
 - (pin number, fingerprint, facial recognition).

Recents:

The button to the far left. When you tap this, your recently opened apps will appear.

Home:

The button in the very center. Tap this to be taken to the Home screen.

Back:

The button to the far right. Tap this to go back to the previous screen.
