# Pros & Cons of Cutting the Cord

## Pros

- ✓ Save money
- ✓ More control over what you watch
- ✓ No long contracts
- ✓ Watch on phone, tablet, or TV

## Cons

- ✗ Need good internet
- ✗ Costs can add up with multiple services
- ✗ Some local channels may be hard to get (but not impossible)

# Common Mistakes

- **Don't Rushing the Cut**

- Canceling cable before setting up your new system (antenna, streaming players, service trials) leads to missing shows and overpaying for rushed equipment.

- **Over-Subscribing**

- Signing up for numerous streaming services at once (like Netflix, HBO, Disney+, Hulu) creates a costly, unused bundle.
  - **Solution:** Rotate subscriptions; sign up for one service to binge a show, then cancel and try another. Only signup during a sports season and not a full year.

- **Replacing Cable Channel Lineups**

- Trying to find every channel you had on cable is expensive and defeats the purpose .
  - **Solution:** Focus on must-watch shows/movies and use a combination of Live TV, on-demand, and free options.

# Common Mistakes

- **Not knowing how you subscribed to a service**
  - Apple Pay
  - Subscribe by using your device
    - Smart TV, Roku, Amazon Fire TV, Apple Pay
- **Not learning how to unsubscribe to a service**
  - Research how to unsubscribe either by website or by device.
- **Not using social media**
  - Follow your local town, news stations, and interests.
- **Not using apps on smartphone / tablet**
  - Weather app, & sign-up for local emergency text messages.

# Social Media Short Form Videos (Brain Rot)
